Covid 19

The COVID-19 pandemic has disrupted many activities around the country and around the world, and our province is no exception. At the Agency, it has caused delays in preparing the training schedule for 2020/2021 and impacted delivery for apprenticeship technical training over the last several months.

Although our training schedule for 2020/2021 is being published now, please understand that we will be seeking advice from Provincial Public Health Officials to determine if training can be delivered in-class in September. Should in-class delivery not be possible in September, we will make every effort with our training partners to provide remote delivery options to enable apprentices to progress during the new training year

What is the attendance policy?

- Promptness and regular attendance are expected from all apprentices attending technical training to ensure program success and apprentice progression. Following an extended absence, the Nova Scotia Apprenticeship Agency reserves the right to communicate absenteeism by the apprentice to employers, Service Canada or third-party partners.
- Late arrivals or early departures of more than thirty minutes will be considered a ½-day absence.
- Apprentices must attend 90% of the total technical training days per level. If an apprentice misses more than 10%, the instructor will contact the apprentice's Industry Training Consultant who will discuss next steps with the apprentice.

How do I apply for technical training?

- Make sure you are a registered apprentice. For more information on how to register as an apprentice, click here [hyperlink]
- Complete and submit the [Technical Training Enrolment Form](#):
 - a. Prior to applying for training, you must have your employer's approval to attend the training.
 - b. Submission of the form does not guarantee you a seat in training. If your application is approved, you will receive emailed confirmation that you are scheduled to attend the training.

Can I take two levels of training in one training year?

The Nova Scotia Apprenticeship Agency periodically updates our training based on input from industry and our Atlantic harmonization efforts. We recommend that before you enroll in two levels of training in one year, you contact your Industry Training Consultant to ensure that you do not repeat any material or experience training gaps.

If you don't know which training you should register for, please contact the Agency.

Atlantic Trades Business Seal (ATBS)

The Atlantic Trades Business Seal Program is a continuing education program for journeypersons to advance their business and leadership skills and to gain regional career mobility. The seal can prepare you to take over a managerial role at your company or to start your own business. If you are already a business owner, the program can help you develop the skills you need to take your business to the next level.
